Career Objective

Front-end developer skilled in JavaScript, HTML, CSS, SASS, Tailwind CSS, React.js, and basic Next.js, focused on building responsive, user-friendly sites. Aspiring full stack developer, eager to learn backend technologies and contribute to impactful projects.

Technical Skills

- **Front-end Technologies:** HTML, CSS, SASS, JavaScript, Tailwind CSS, React.js, Next.js (basic)
- **Back-end Technologies:** Node.js, Express.js
- **Database:** MongoDB
- **Tools:** Git, GitHub, Visual Studio Code, Figma
- **Other Skills:** Responsive Design, Version Control, Firebase

Projects

- **Skill Connect (In Progress) - Team Project:** [Live Link](#) [Github Link](#)

Description: Skill Connect links freelancers and clients for secure job postings and skill verification.

My Contributions:

- **Search and Filtering Options:** Added search and filter options for clients and freelancers.
- **Posted Job Feature:** Built job posting with edit and delete options for clients.
- **Profile Update:** Enabled users to update their profiles with relevant details and settings.
- **Client and Freelancer Review Feature:** Created a review system for client and freelancer feedback.
- **Payment Gateway Method:** Integrated secure escrow and Stripe payments for safe transactions.
- **Gemini AI Integration:** Implemented Gemini AI to enhance project functionality.

Features:

- **Real-Time Messaging:** Real-time chat with file sharing and history.
- **Secure Payment with Escrow:** Escrow payments with credit card, PayPal, and bank transfer support.
- **Project Management Dashboard:** Dashboard for managing projects, deadlines, and payments.

Technologies: Tailwind CSS, NextUI, Farmer Motion, Next.js, Node.js, Express.js, MongoDB, JWT

- **TechSpotter:** [Live Link](#) [Github-Client](#) [Github-Server](#)

Description: TechSpotter is a MERN website that personalizes tech news, trends, and reviews.

Features:

- **Blog Management:** Users can manage blog posts and save favorites to their wishlist.
- **Blog Interaction:** Users can report issues, leave reviews, and access blog details.
- **Profile Verification:** Users verify profiles through a secure SSLCommerz gateway.

Technologies: Tailwind CSS, Framer Motion, React.js, Node.js, Express.js, MongoDB, Firebase, JWT

- **Creative Palette:** [Live Link](#) [Github-Client](#) [Github-Server](#)

Description: Creative Palette is an online marketplace for unique art and craft items from independent artists.

Features:

- **User Authentication:** Secure login, account creation, and social media sign-in options.
- **Product Management:** Ability for users to add, update, and interact with products
-

Technologies: Tailwind CSS, Framer Motion, React.js, Node.js, Express.js, MongoDB, Firebase, JWT
